DIARY NOTES

DD/S

LKW jrf

12 December 1963

1. General Carter buzzed to say that he had asked Mr. Kirkpatrick to discuss with me the possibility of raising the level of approval for long distance telephone calls. I told him that I had been giving some thought to over-all economy in telephone expenses and that this would fit in very appropriately.

2. I visited the polygraph operators conference at [REDACTED] with Bob Bannerman, made a few remarks, and stayed for a Happy Hour and dinner. This is a most unusual and enthusiastic group of very professional employees. The conference seems to be well worthwhile. 25X1A6a

* * * * *

3. I handed to Mr. Kirkpatrick John Tietjen's "Eyes Only" paper suggesting the possibility of doing an indirect assessment of Lee Harvey Oswald. He will send the paper to General Carter and the Director and will let me know if the Director desires the Medical Staff to do anything on this. (General Carter discussed this paper with the Director who does wish to offer this service. He suggested that we contact Mr. Dulles to make the offer and to see whether he will make information which the commission has available to us. John Tietjen has an appointment to see Mr. Dulles about this matter at 1100 hours on 16 December.)
